- ▶ Name: Mike Byram
- ▶ Role: Vice President, Infrastructure Solutions, Intelligent Solutions & Tech
- ▶ Contact: [mbyram@vermeer.com](mailto:mbyram@vermeer.com)
- ▶ Name: Adam Bates
- ▶ Role: Group Product Manager
- ▶ Contact: [abates@vermeer.com](mailto:abates@vermeer.com)

- Expertise: Vermeer offers a complete lineup of utility installation equipment, including HDD, trenchers, rockwheels, plows, vacuum excavators, mini skid steers, as well as brush/whole tree chippers and tub/horizontal grinders for line and ROW clearing/maintenance. We utilize our dedicated R&D facilities and a University research park center for developing next-gen solutions.
- Expectations: Collaborate with industry stakeholders to develop practical solutions at scale to improve cost, quality and delivery of installing electrical distribution underground.
